

Dr. David Landwehr earned his D.D.S. at the University of Minnesota. He received an M.S. degree and certificate in oral and maxillofacial pathology at The Ohio State University followed by specialty training in endodontics at the University of Michigan. Dr. Landwehr has been a private practice clinician for more than twenty years and for the last eight years has provided exemplary patient care at Capital Endodontics in Madison, WI.

Dr. Landwehr's ongoing work as an educator and opinion leader has positioned him at the forefront of modern endodontic treatment. He has lectured and presented case studies both nationally and internationally. Dr. Landwehr was the Chief of Endodontics for the Meriter Hospital general practice residency for more than ten years. Dr. Landwehr authored the chapter titled Lesions That Mimic Endodontic Pathosis for the most recent edition of *Cohen's Pathways of the Pulp* and contributed to a chapter on the endodontic applications of CBCT in *Maxillofacial Cone Beam Computed Tomography*. His teaching focuses on techniques used daily in his clinical practice that are efficient, predictable and evidence based.
